TECHNOLOGY REQUEST

CALLING ALL ATHENIAN ACADEMY PARENTS

(JANUARY, 2017)

At this time we are requesting each parent provide a set of earbuds for your child to use in the classroom and/or the computer lab. We are asking that you put the earbuds into a zippered plastic bag labeled with your child's first and last name, Grade and Homeroom Teacher Name. The teachers will keep the earbuds in the classroom and they will be returned to the students at the end of the school year. We will do our best to keep them safe and in good condition however, when dealing with children; anything is possible. (haha)

Not only will this assist us in maintaining a healthier environment for our students, the earbuds will also be used extensively for the upcoming computer-based testing.

If you would like volunteer hours, you may also donate to the school additional earbuds. For each \$5.00 spent you will receive 1 volunteer hour.

The earbuds may be purchased anywhere and the only requirements are the jack needs to be 1/8-inch or 3.5mm plug and the cord length needs to be at least 6 feet.

Thanking you in advance for your cooperation,

Athenian Academy
Technology Department
